

I am outraged that Sinclair Broadcasting is asking its member stations to air a "documentary" that is in fact a non-factual smear piece against John Kerry. The protestations of the FCC chair that there is no precedent for preventing this travesty miss the point. This "documentary" is nothing less than a political advertisement for George W. Bush, and the FCC should treat it as such.

I strongly urge the FCC to prevent the Sinclair Broadcasting group from abusing the public airwaves.

Thank you for your attention.
